

National Technical Coordinator (FSM Department of Environment, Climate Change & Emergency (DECEM)) Pohnpei [open until filled]

The Government of the Federated States of Micronesia (FSM) seeks well qualified individuals to fill the position of **National Technical Coordinator**, FSM National Government at the Department of Environment, Climate Change & Emergency Management.

Duties & Responsibilities

- Technical advice to orient planning and implementation of project activities, monitoring progress against approved work plans and indicators in the results framework and day-to-day management of project staff. This includes providing technical oversight over all project processes, deliverables, finances, procurement and contracting of service providers to ensure achievement of project outcomes.
- Technically oversee and coordinate the implementation of project activities in Yap and Kosrae.
- Provide strategic leadership on technical aspects to the project by building collaboration between project partners including but not limited to DECEM, R&D, State Focal Point Agencies, and NGO partners.
- Provide technical advisory services with reference to interpreting the results of the project interventions.
- Cooperate with the PMU to ensure that the project produces

results as specified in the project documents, meeting the required standard of quality within the specified constraints of time and cost.

- Inform the PMU of any delays or difficulties encountered during project implementation, facilitating appropriate support and corrective measures.
- Provide technical support to the PMU in various project management activities.
- Oversee, in cooperation with the PMI, the project Monitoring & Evaluation (M&E) activities, as well as knowledge Management (KM) initiatives
- Provide technical inputs and draft technical sections of project Annual Work Plans, provide technical reviews and orientation to project outputs, M&E and KM activities, and quarterly and annual reporting of project results.
- Support the PMU in the development and management of communication strategies and KM activities.
- Ensure timely reporting and documentation of project progress, challenges, and outcomes.
- Liaise with stakeholders at national and local levels to ensure effective coordination and implementation of project activities.

Qualification Requirements:

Graduation from advanced University with a Master's degree in conservation, sustainable development, economics, public policy, natural resources management, social sciences or related field. A first-level university degree in combination with qualifying experience may be accepted in lieu of the advanced university degree. Proven experience in project management and community development, preferably in the context of ecotourism, natural resources management and biodiversity conservation. Strong knowledge of the project sites. Previous experience with UN project will be a definite asset. Experience in knowledge management and stakeholder engagement. Familiarity with the

socio-economic and cultural context of Yap and Kosrae. Proficiency in the use of computer software applications, especially MS Word and MS Excel. Strong leadership and communication skills, with the ability to effectively engage with diverse stakeholders. Excellent organizational and problem-solving abilities, with attention to detail. Excellent language skills in English (writing, speaking and reading).

Salary: : Salary will be determined through negotiation and will be based on the applicant's qualifications and experience.
